PROFILE SUMMARY

Highly motivated and passionate Backend Developer, driven by the challenge of building robust, scalable systems. While my path didn't include a formal degree, it's fueled a relentless, self-directed pursuit of backend mastery – from APIs to databases to infrastructure. Eager to contribute clean, efficient code and solve complex problems

EDUCATION

2023 - 2023
R.W FICK SECONDARY SCHOOL

- Matric

2025 - Current
WALTER SISULU UNIVERSITY

- Diploma in financial information systems

SKILLS

- HTML/CSS
- JavaScript
- React
- Node.js
- Express.js
- MongoDB
- Git/GitHub

LANGUAGES

- English: Fluent
- SePedi: Fluent
- Afrikaans: Basics

WORK EXPERIENCE

Fullstack developer

2025 - PRESENT

Personal projects

- Matric2Uni Web Application**
- Built full-stack solution for students to check university eligibility based on matric results. Developed backend logic with Node.js/Express and MongoDB for data processing. Created responsive frontend with React.js/CSS for intuitive results display.
- R.W. Fick Senior Secondary School Website**
- Designed and developed a modern frontend website for my former school. Emphasized a clean user experience, mobile responsiveness, and optimized performance. Implemented version control using Git and hosted the project on GitHub.
